Claims 1-11, 14, 54-64, 66 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or render obvious a process, as called for in claims 1 and 54, for oligomerization process of olefin from a feed stock containing oxygenated hydrocarbons in which the oxygenated hydrocarbons are removed to obtain a feed containing less than 1,000 ppm by weight of oxygenated hydrocarbons. The feed is then hydrated to produce a feed containing 0.05 to 2 weight percent of water before the olefin is oligomerized.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
